in the game culture reader editors jason c thompson and marc a ouellette propose that game studies that peculiar multi inter and trans disciplinary field wherein international researchers from such diverse areas as rhetoric computer science literary studies culture studies psychology media studies and so on come together to study the production distribution and consumption of games has reached an unproductive stasis its scholarship remains either divided as in the narratologists versus ludologists debate or indecisive as in its frequently apolitical stances on play and fandom thompson and ouellette firmly hold that scholarship should be distinguished from the repetitively reductive commonplaces of violence sexism and addiction in other words beyond the headline friendly modern topoi that now dominate the discourse of game studies what issues approaches and insights are being if not erased then displaced this volume gathers together a host of scholars from different countries institutions disciplines departments and ranks in order to present original and evocative scholarship on digital game culture collectively the contributors reject the commonplaces that have come to define digital games as apolitical or as somehow outside of the imbricated processes of cultural production that govern the medium itself as an alternative they offer essays that explore video game theory ludic spaces and temporalities and video game rhetorics importantly the authors emphasize throughout that digital games should be understood on their own terms literally this assertion necessitates the serious reconsideration of terms borrowed from other academic disciplines figuratively the claim embeds the embrace of game play in the continuing investigation of digital games as cultural forms put another way by questioning the received wisdom that would consign digital games to irrelevant spheres of harmless child s play or of invidious mass entertainment the authors productively engage with ludic ambiguities

asian popular culture new hybrid and alternate media edited by john a lent and lorna fitzsimmons is an interdisciplinary study of popular culture practices in asia including regional and national studies of japan china south korea and australia the contributors explore the evolution and intersection of popular forms gaming manga anime film music fiction youtube videos and explicate the changing cultural meanings of these media in historical and contemporary contexts at this study s core are the roles popular culture plays in the construction of national and regional identity common themes in this text include the impact of new information technology whether it be on gaming in east asia music in 1960s japan or candlelight vigils in south korea hybridity of old and new versions of the chinese game weiqi of online and hand held gaming in south korea and japan that developed localized expressions or of united states culture transplanted to japan in post world war ii leading to the current otaku fan boy culture and the roles that nationalism and grassroots and alternative media of expression play in contemporary asian popular culture this is an essential study in understanding the role of popular culture in asia s national and regional identity

this three volume set of essays is dedicated to alain touwaide known for his far reaching investigations in fields such as ancient medicine botany pharmacy texts and manuscripts the classical tradition translation the history of science ethnopharmacology and plant therapies the essays penned by 80 international scholars and researchers and written in six languages are grouped into three broad categories manuscripts plants and remedies to reflect alain s main areas of research each category is broken into subgroups such as manuscripts texts and science botany gardens materia medica pharmacy drugs archaeology medical traditions and continuity of scientific knowledge in the east and west the papers reach across many fields of scholarship science and medicine and are necessarily and fundamentally trans disciplinary trans chronological and trans geographic these volumes are not so much a festschrift as an approach to alain s work through many disciplines and methods a discussion of the current status of each field and an opening into new perspectives
