ecologists can spend a lifetime researching a small patch of the earth studying the interactions between organisms and the environment and exploring the roles those interactions play in determining distribution abundance and evolutionary change with so few ecologists and so many systems to study generalizations are essential but how do you extrapolate knowledge about a well studied area and apply it elsewhere through a range of original essays written by eminent ecologists and naturalists the ecology of place explores how place focused research yields exportable general knowledge as well as practical local knowledge and how society can facilitate ecological understanding by investing in field sites place centered databases interdisciplinary collaborations and field oriented education programs that emphasize natural history this unique patchwork of case study narratives philosophical musings and historical analyses is tied together with commentaries from editors ian billick and mary price that develop and synthesize common threads the result is a unique volume rich with all too rare insights into how science is actually done as told by

what makes a person call a particular place home does it follow simply from being born there is it the result of a language shared with neighbours or attachment to a familiar landscape perhaps it is a piece of music or a painting or even a travelogue that captures the essence of home and what about the sense of belonging that inspires nationalist or local autonomy movements each of these can be a marker of identity but all are ambiguous where you were born has a different meaning if like so many modern germans you have moved on and now live elsewhere representing the national interest in parliament becomes more difficult when voters demand attention to local and regional issues or when ethnic tensions erupt in all these situations the landscape of home takes on a more elusive meaning localism landscape and the ambiguities of place is about the german nation state and the german speaking lands beyond it from the 1860s to the 1930s the authors explore a wide range of subjects music and art elections and political festivities local landscape and nature conservation tourism and language struggles in the family and the school yet they share an interest in the ambiguities of german identity in an age of extraordinarily rapid socio economic change these essays do not assume the primacy of national allegiance instead by using the sense of place as a prism to look at german identity in new ways they examine a sense of germanness that was neither self evident nor unchanging
