this book presents a new theory of market and capitalism detailing its key moments and general logic it is based on the distinction between two market

types the simple commodity market and the capitalist one in contrast to what is usually uncritically accepted disequilibrium and imperfect competition are admitted here to be a functional norm of the capitalist market the book also shows that equilibrium and perfect competition are admitted to be a functional anomaly with crises considered as the result of such an anomaly it details the general principles and concrete measures of crisis proof policies and behavior

mcconnell and brue s economics principles problems and policies is the leading principles of economics textbook it continues to be innovative while teaching students in a clear unbiased way the 18th edition builds upon the tradition of leadership by sticking to 3 main goals help the beginning student master the principles essential for understanding the economizing problem specific economic issues and the policy alternatives help the student understand and apply the economic perspective and reason accurately and objectively about economic matters and promote a lasting student interest in economics and the economy

the essays brought together in this volume share a common objective to bring a unifying methodological approach to the analysis of financial problems in developing open economies while the primary focus is on contemporary latin america the methods employed and the lessons learned are of wider applicability the papers address the financial integration issue from three different perspectives in some cases a country study is the vehicle for an econometric investigation of a particular external linkage in other cases an individual country s experience suggests an economic model in which the stylized facts may be analyzed and developed a third direction is unabashedly theoretical and formulates more general principles which are broadly applicable rather than country specific

includes entries for maps and atlases
