nobody it seems could write better than this no one could have a clearer vision of the micro
circuitry of post modern life evening standard a rich parody of the parallels between the
jargon of football and the jargon of battle and a touch of cold war existentialism makes this
powerful novel as hilarious as it is relevant ostensibly delillo s blackly comic second novel
is about gary harkness a football player and student at logos college west texas during a
season of unprecedented success gary becomes increasingly obsessed with the threat of
nuclear war both frightened and fascinated by the prospect he listens to his team mates
discussing match tactics in much the same terms as generals might contemplate global
conflict but as the terminologies of football and nuclear war the language of end zones
become interchanged the polysemous nature of words emerges and delillo forces us to see
beyond the sterile reality of substitution this clever and playful novel is a timeless and

topical study of human beings obsession with conflict and confrontation

with the publication of his seminal novel *White Noise* Don DeLillo was elevated into the pantheon of great American writers his novels are admired and studied for their narrative technique political themes and their prophetic commentary on the cultural crises affecting contemporary America in an age dominated by the image DeLillo's fiction encourages the reader to think historically about such matters as the Cold War the assassination of President Kennedy threats to the environment and terrorism this companion charts the shape of DeLillo's career his relation to twentieth century aesthetics and his major themes it also provides in depth assessments of his best known novels *White Noise* *Libra* and *Underworld* which have become required reading not only for students of American literature but for all interested in the history and the future of American culture

a study of the natural world as imagined by contemporary writers specifically their portrayals of nature as monster in zombielandscapes and phantom zones *Ecocriticism and the Liminal* from *Invisible Man* to *The Walking Dead* Lee Rozelle chronicles the weirdest ugliest and most mixed up characters to appear on the literary scene since World War II creatures intimately linked to damaged habitats that rise from the muck not to destroy or rule the world but to save it the book asks what happens to these landscapes after the madness havoc and destruction what monsters and magic surface then Rozelle argues that zombielandscapes and phantom zones depicted in the book become catalysts for environmental reanimation and sources of hope liminality offers exciting and useful new ways to conceptualize places that have historically proven troublesome unwieldy or hard to define zombielandscapes can reduce the effects of pollution promote environmental justice lessen economic disparity and localize food production the grotesques that ooze and crawl from these passages challenge readers to consider new ways to re-inhabit broken lands at a time when energy efficiency fracking climate change the Pacific Trade Agreement local food production and sustainability shape the intellectual landscape Rozelle focuses on literary works from 1950 to 2015 the zombielandscapes and monsterlandscapes of post World War II literature that portray in troubling and often devastating ways the brownfields that have been divested of much of their biodiversity and ecological viability however he also highlights how these literary works suggest a new life and new potential for such environments with an unlikely focus on places of ruination and an application of interdisciplinary transnational approaches to a range of fields and texts Rozelle advances the notion that places of distortion might become a nexus where revelation and advocacy

are possible again zombiescapes and phantom zones has much to offer to various fields of scholarship including literary studies ecocriticism and environmental studies research academic and undergraduate audiences will be captivated by rozelle s lively prose and unique anthropological ecocritical and literary analyses

this book is the first to explore technoculture in all of don delillo s novels from americana 1971 to the silence 2020 the american author anatomizes the constantly changing relationship between culture and technology in overt and layered aspects of the characters experiences through a tendency to discover and rediscover technocultural modes of appearance delillo emphasizes settings wherein technological progress is implicated in cultural imperatives this study brings forth representations of such implication interaction through various themes particularly perception history reality space architecture information and the posthuman the chapters are based on a thematic structure that weaves delillo s novels with the rich literary criticism produced on the author and with the various theoretical frameworks of technoculture this leads to the formulation and elaboration on numerous objects of research extracted from delillo s novels namely the theorization of delillo s radiance in dailiness the investigation of various uses of technology as an extension the role of image technologies in redefining history the reconceptualization of the ethical and behavioral aspects of reality the development of tele visual and embodied perceptions in various technocultural spaces and the involvement of information technologies in

reconstructing the beliefs behaviors and activities of the posthuman one of the main aims of the study is to show how delillo s novels bring to light the constant transformation of technocultural everydayness it is argued that though such transformation is confusing or resisted at times it points to a transitional mode of being this transitional state does not dehumanize delillo s characters it reveals their humanity in a continually changing world
