this is the only comprehensive text to focus on the development of practical interviewing and counseling skills for masterís level mental health counseling students it is structured around the goals established by the cacrepís 2009

document on standards for mhc programs and uniquely encompasses both theory and practice from the perspectives of a diverse array of theoretical schools and practice strategies the benefits of integrating complementary therapy approaches according to the needs of the client and the importance of multicultural considerations in interviewing and counseling are consistent themes throughout the book's hands on guidance regarding interviewing and counseling skills along with its embrace of different therapeutic modalities will enable students to learn how to provide care to clients that is tailored to their specific needs each chapter includes a highlighted section that draws students' attention to topics related to diversity and strategies for working with clients from a variety of populations issues related to race ethnicity immigration and country of origin are highlighted along with age gender sexual orientation religion language and physical and cognitive abilities the use of case examples from multiple theoretical orientations offers a realistic view of what actually occurs in a consulting room the book also addresses working with clients who have serious emotional or psychological difficulties and covers evidenced based practice assessment and diagnosis and when and how to terminate treatment an instructor's guide and powerpoint slides are also included key features provides a balanced integrated theoretical and practical approach to interviewing and counseling with a focus on skills development teaches the fundamental skills of empathy active listening treatment planning and developing a strong therapeutic alliance includes spotlight on culture sections with case studies to emphasize how diversity informs sensitive and effective psychotherapy provides exercises to help students discover their own blind spots in regard to diversity offers a realistic window into the profession through numerous case examples

the only comprehensive interviewing and counseling text grounded in a strong multi theoretical foundation structured around cacrep standards essential interviewing and counseling skills second edition uniquely encompasses both theory and practice from the perspectives of a diverse array of theoretical schools and practice strategies while continuing to disseminate counseling fundamentals the second edition focuses extensively on the acquisition of robust interviewing and counseling skills including special preparation for the initial assessment and counseling session it is also distinguished by its integration of cognitive behavioral and psychodynamic therapy approaches throughout the text emphasizes the importance of multicultural humility and a multicultural orientation to counseling including challenging students to examine their own backgrounds and biases this latest edition also addresses key aspects of telehealth that have come to the fore during the covid

pandemic the use of case examples throughout highlights multiple theoretical approaches and illustrates how to integrate a wide range of perspectives with an emphasis on counseling clients from diverse cultural backgrounds each chapter focuses on strategies for working with varied populations with an emphasis on intersectionality the authors consider many forms of diversity including race ethnicity immigration and country of origin along with age gender sexual orientation religion language and physical and cognitive abilities purchase includes digital access for use on most mobile devices or computers updates to the instructor's resources include an instructor's manual power points and a new test bank new to the second edition includes a new chapter on theoretical integration of approaches in counseling new discussions on how to successfully use telehealth for interviewing and counseling includes hot off the press boxes highlighting cutting edge research to inform strategies for counseling and professional development the entire text has been updated with the latest research and clinical references key features includes an emphasis on multicultural competence and humility throughout the text and features a spotlight on culture focusing on specific cultural considerations in each chapter provides a balanced integrated theoretical and practical approach to interviewing and counseling with a focus on skills development discusses evidence based practice assessment diagnosis and when how to end treatment teaches the fundamental skills of empathy active listening treatment planning and developing a strong therapeutic alliance with the client

this successful book continues to offer readers a practical introduction to human relations counseling the text reflects recent changes in managed health care okun's blend of hands on exercises examples and just the right amount of theory readers will learn to master the practical skills of interviewing and relationship building to help them become compassionate helpers

master interviewing skills with intentional interviewing and counseling facilitating client development in a multicultural society 8th edition this book gives you the tools to adapt your skills to address both individual and multicultural uniqueness conduct interviews using five different theoretical approaches and begin developing a personalized style and theory of interviewing and counseling that matches your own aptitudes and affinities case studies sample interviews and a portfolio of competencies are just a few of the many tools that will help you master the material and become a better listener

principles and procedures this time tested book describes the fundamentals of effective interviewing and counseling in speech language pathology and audiology the basic principles and procedures of interviewing and counseling and the specific techniques and suggestions in this book are applicable to children and adults to clients and caregivers and to all settings in which clinicians provide service this third edition has added more than 100 new references 90 of which were published between 2003 and 2004 practical case studies were also added along with examples to help readers with clinical application of the information professionals addressing communicative disorders have long recognized the significance of effective interviewing and counseling in clinical situations yet as many clinicians have lamented for years interviewing and counseling are neglected areas within most educational programs graduates go into workplaces with neither coursework nor effective practicum experiences in interviewing and counseling too often clinicians must learn to interview and counsel on their own on the fly while on the job this is a disservice to clients and is hard on the clinician also such a method of learning does not necessarily mean that the most effective methods of interviewing and counseling are discovered along the way this book addresses those concerns by providing a comprehensive source for effective counseling and interviewing techniques anyone who works with persons with communicative disorders will benefit from this thorough book professionals and students alike will find this resource full of practical pertinent topics it treats a variety of situations clinicians face and describes methods and techniques applicable to students as well as professionals

an excellent guide to interviewing in the helping professions essentials of intentional interviewing 3rd edition presents the authors renowned microskills model which revolutionized modern understanding of the counseling and therapy process by teaching vital interviewing skills step by step this demystifying process breaks down counseling into manageable micro units and builds a bridge between theoretical understanding mastery of the skills and the practice of counseling the book s multicultural focus reflects the diverse nature of today s classroom and society new to this edition are a chapter on crisis counseling basic information on neuroscience as it relates to interviewing new video content and brief summaries of key theories of helping with additional information and transcripts available online in addition mindtap tm an online learning platform with a full array of text specific study tools is available with the new edition

filled with examples case studies and exercises this practical resource is

designed to help readers become familiar with the full range of interviewing assessment and intervention skills essential to practitioners reflecting many of the changes taking place in the training and delivery of counselling and psychological services in the 90s this revision of the cormiers best seller now includes increased emphasis on multicultural issues and diversity coverage of the transition to managed mental health care through various hmos increased coverage that reflects the trend toward holistic treatment and health care services a chapter on knowing yourself as a counselor that guides readers toward self awareness and coverage of client process and outcome evaluation skills necessary for mastering today s treatment planning guidelines

now a little over a century old the field of psychotherapy finds itself in a strange position we possess a rich body of theories and a lengthy list of empirically supported treatments that have demonstrated their efficacy at reducing human suffering however our theories and our treatments still fall short research finds that about one third of adult patients who enter treatment in a randomized controlled trial either do not benefit or worsen and patients in naturalistic settings particularly children fare even worse lambert 2013 moreover patients can only benefit from therapy if they are in it as many as 20 of patients drop out of therapy prematurely swift greenberg 2015

this book offers clear and direct answers to the questions most frequently asked by students and trainees learning how to talk to clients and extract critical data from them its development reflects the old adage that necessity is the mother of invention for many years the editors taught beginning level mental health clinicians they found however no text to be satisfactory including a number that they themselves were involved in producing some were too difficult some were too simplistic some were too doctrinaire still others had missing elements written in a reader friendly how to style the chapters in basic interviewing are not weighed down by references rather each contributor suggests readings for students and instructors who wish to pursue questions further after the initial overview chapter there are 12 chapters addressing the nuts and bolts concerns of all clinicians that can be particularly vexing for neophytes they cover a variety of issues from the most specific like how to begin and end interviews to the more general like how to build rapport and identify targets for treatment throughout rich clinical illustrations facilitate the pragmatic application of fundamental principles beginning graduate students in counseling and clinical psychology social work and other allied mental health fields as well as psychiatric trainees will find this text to be an indispensable companion

this textbook for the law student discusses the essential skills of interviewing and counselling clients
