nov 11 2022 i know that s is a string of characters but i don t know how to use it can anyone provide me a very basic example of how its used and how it s different from char all the examples

the s tag is just an abbreviation of the qualifier descriptor sarcasm by convention most people understand the whole expression without the need to spell it all out just like a tl dr or a ps etc

sep 2 2017 it s used to specify in a dynamic way what the width of the field is the width is not specified in the format string but as an additional integer value argument preceding the argument

s indicates a conversion type of string when using python s string formatting capabilities more specifically s converts a specified value to a string using the str function

its nonsense is what it is lemmetelyoo us sarcastics have been being misunderstood just fine on our own and we was happy to take it that s what made it funny
