estuaries are defined by mixing of river and sea water thus freshwater inflow is a key driver of estuary ecosystem structure and function while there is much concern about water quality there is much less about water quantity as water is diverted for human use less is flowing to the coast which threatens estuary ecosystems some jurisdictions are now setting inflow standards but there is no consensus on how to identify how much freshwater an estuary needs there is a climatic gradient along the northwestern gulf of mexico coast and estuaries vary from hydrologically positive to neutral to negative and this makes the texas coast the ideal place to study how ecological processes vary with freshwater inflow an estuary comparison approach is used in this open access work to examine hydrology circulation salinity nutrients carbonate dissolved oxygen plankton nekton benthos and habitat dynamics and responses across varying hydrological regimes

this book illuminates arts activist interventions that raise consciousness and advocacy for women s right to a life free from violence in a context where gender based

violence gbv has continued to intensify across the globe the international range of essays focus on violations of bodily integrity and autonomy reproductive domestic and sexual violence femicide and feminicide comparing and interrogating arts activist strategies and visual methods the book also explores tactics employed by arts activists attentive to effects and lived experiences of gbv and imagining potential solutions founded in feminist thinking to change behaviours and raise awareness generating systemic change the case studies of feminist transnational contemporary arts activism include examples from austria brazil canada ghana guatemala hong kong mexico and the united states arts engaged with include textile work crafts making performance art clay work protest art and documentary art indicating the breadth and richness of the work of feminist political artists at a time when according to the un women s estimates almost one in three women have been subjected to violence it is critical to understand how feminist politics catalyses social cultural and political changes this book will be of interest to scholars working in art history women s studies gender studies and visual culture

this book employs sociohistorical narrative and discourse frameworks to discuss the sociopolitical complexities and ambiguities of educating marginalized groups in sub saharan africa since western education was introduced in the region it outlines the systemic and structural challenges faced by marginalized children in the education system that prevent them from fully participating in the education process this book focuses on how the props underlying christian missionary education colonial education and early postcolonial educational enterprise all served to marginalize certain groups including women some geographical regions and or communities such as islamic communities and people with disabilities from the colonial and postcolonial economic discourses this historical background provides the springboard for discussions on the complexities and ambiguities of educating marginalized groups in some communities in sub saharan africa in the contemporary times this book also highlights the challenges of the recent policies of policy makers and the strategies and initiatives of civic societies non governmental organizations and local communities to promote marginalized children s participation in education this book elucidates the varied ways certain groups and communities continue to interrogate the structural and systemic challenges that marginalize them educationally it argues that the level of marginalized groups participation in education in sub saharan african in the 21st century will determine the progress the region will make in the education for all efa initiative and the millennium development goals mdg furthermore it argues that increasing educational participation in marginalized communities requires implementation of educational programs that address marginalized groups structural social arrangements and socioeconomic contexts

michael madigan rose from the chicago machine to hold unprecedented power as speaker of the illinois house of representatives in his thirty six years wielding the gavel madigan outlasted governors passed or blocked legislation at will and outmaneuvered virtually every attempt to limit his reach veteran reporter ray long draws on four decades of observing state government to provide the definitive political analysis of michael madigan secretive intimidating shrewd power hungry madigan mesmerized his admirers and often left his opponents too beaten down to oppose him long vividly recreates the battles that defined the madigan era from stunning james thompson with a lightning strike tax increase to pressing for a pension overhaul that ultimately failed in the courts to steering the house toward the rod blagojevich impeachment long also shines a light on the machinery that kept the speaker in power head of a patronage army madigan ruthlessly used his influence and fundraising prowess to reward loyalists and aid his daughter s electoral fortunes at the same time he reshaped bills to guarantee he and his democratic troops shared in the partisan spoils of his legislative victories yet madigan s position as the state s seemingly invulnerable power broker could not survive scandals among his close associates and the widespread belief that his time as speaker had finally reached its end unsparing and authoritative the house that madigan built is the page turning account of one the most powerful politicians in illinois history

car ownership is set to triple by 2050 trucking activity will double and air travel could increase fourfold this book examines how to enable mobility without accelerating climate change it finds that if changes are made to the way people travel adoption of technologies to improve vehicle efficiency and a shift to low co2 fuels it is possible to move onto a different pathway where transport co2 emissions by 2050 are far below current levels at costs that are lower than many assume the report discusses the prospects for shifting more travel to the most efficient modes and reducing travel growth rates improving vehicle fuel efficiency by up to 50 using cost effective incremental technologies and moving toward electricity hydrogen and advanced biofuels to achieve a more secure and sustainable transport future if governments implement strong policies to achieve this scenario transport can play its role and dramatically reduce co2 emissions by 2050

examines the dominant u s narrative about terrorism told after september 11 2001 its historical context and its relation to the war on terror and outlines a faith based democratic alternative narrative for the united states that is centered on peace rooted in justice includes recommendations for individuals and communities provided by publisher
