throughout the twentieth century governments sought to achieve development not only in their own countries but also in other regions of the world particularly in africa asia latin america and the caribbean this focus on development as a goal has continued into the twenty first century for example through the united nations millennium development targets while development is often viewed as something very positive it is also very important to consider the possible detrimental effects it may have on the natural environment different social groups and on the cohesion and stability of societies in this important book katie willis investigates and places in a historical context the development theories behind contemporary debates such as globalization and transnationalism the main definitions of development and development theory are outlined with a description and explanation of how approaches have changed over time the differing explanations of inequalities in development both spatially and socially and the reasoning behind different development policies are also considered by drawing on pre twentieth century european development theories and examining current policies in europe and the usa the book not only stresses commonalities in development theorizing over time and space but also the importance of context in theory construction this topical book provides an ideal introduction to development theories for students in geography development studies area studies anthropology and sociology it contains student friendly features including boxed case studies with examples definitions summary sections suggestions for further reading discussion questions and website information

now published by plural the communication disorders casebook learning by example second edition focuses on current issues and trends in speech language pathology slp clinical practice new and advanced students as well as practitioners will benefit from this comprehensive collection of real world examples provided by experienced clinicians and scholars the cases follow an easy to understand structure that allows readers to accompany an slp through the steps of evaluation diagnosis treatment and follow up of individuals with speech language swallowing and hearing challenges and their families the clinical studies employ a holistic person

first approach that considers the beliefs values lived experiences and social contexts of patients throughout the lifespan with a deep commitment to case based learning shelly s chabon ellen r cohn and dorian lee wilkerson have curated a valuable compendium of thought provoking studies that encourage readers to think like clinicians with empathy understanding and knowledge new to the second edition new and updated cases to reflect current research and clinical practice many new references in both the cases and online instructor s manual key features a focus on conceptual knowledge areas comprehensive case histories from leading experts step by step explanations of diagnoses treatment options and outcomes basic and advanced learning objectives comprehension and analysis questions to evaluate understanding of case studies suggested activities and readings

culture and identity engages students with autobiographical stories that show the intersections of culture as part of identity formation the easy to read stories centered on such themes as race ethnicity gender class religion sexual orientation and disability tell the real life struggles with identity development life events family relationships and family history the third edition includes an expanded framework model that encompasses racial socialization oppression and resilience new discussions of timely topics include race and gender intersectionality microaggressions enculturation cultural homelessness risk of journey spirituality and wellness and apa guidelines for working with transgendered individuals

i so thoroughly enjoyed your class and i thought the textbook was excellent the autobiographies were extremely beneficial to me as jumping off points to explore multicultural terms and concepts your fair selection of individuals with such varied and complex backgrounds made it impossible for any of us to fall into pet political or ideological paradigms right or left thank you again for such a good learning experience victoria herbert student at claremont university i really liked the textbook the story format is superb because it allows you enter into ideas and concepts experientially this tends to make them much more comprehensible and enduring

than definitions or third person explanations it also greatly increased my empathy for certain populations rachel s story about the transgender child was extremely powerful in this regard finally stories have a strong convincing quality it s hard to argue with someone s experience stephen schubert i liked it i actually enjoyed reading it which i can t always say about grad school textbooks i thought that it was easy to read and follow it gave valuable background information which tied in history and current events well this allowed me to more clearly understand society as a whole i really liked the vignettes looking at people s experiences from different cultures backgrounds etc it enabled me to better understand where people were coming from and their wordviews it gave thorough descriptions of groups theories and sociology psychology concepts this helped me to better understand people s struggles julie mcshane i actually thought it was one of the better textbooks i ve had in the program specifically because of the life stories i always think case studies are very effective because your learning is within a real life context rather than relying on just theories and then trying to apply those theories to actual situations which can be difficult lorraine hayes northeastern illinois university story is one of the most powerful ways to creating meaning this collection of life stories offers compelling narratives by individuals from different races ethnic groups religions sexual orientations and social classes by weaving these engaging stories with relevant theoretical topics this unique textbook provides deeper levels of understanding on how cultural factors influence identity personality worldview and mental health using a content theme analysis dimensions of multicultural counseling a life story approach allows readers to easily grasp the relationship between multiple dimensions and the formation of identity key features and benefits combines theory and practice as each life story is followed by a clinical applications section which contain practical ideas for working with clients who have similar stories allows for easy classroom assignments since each section in the book can be read independently devotes full chapters to topics not found in other textbooks oppression and resilience sexual orientation multicultural theory offers useful toolbox activities which gives students additional resources for further exploration praise for the authors

precursory work culture and identity life stories for counselors and therapists is a brilliant revolution in our way of looking at culture and identity through an understanding of diverse people s diverse life stories reading each character s story helps us learn how distinct each individual life is and how rich and diverse our world is it packs rich and diverse information derived from firsthand and intimate stories psyccritiques also available with this book an instructor s resource cd with supplemental materials for each chapter and a helpful internet study site including podcasts and videos offer further opportunities that examine and apply this mosaic of rich subject matter intended audience this core text may be used in upper level undergraduate in multicultural counseling psychology social work marriage and family therapy and human services as well as a text for advanced and doctoral courses on multicultural issues a valuable resource for understanding cultural factors in clinical work it will enhance the clinical skills of mental health providers who work with diverse client populations

prepare for the real world of family nursing care explore family nursing the way it s practiced today with a theory guided evidence based approach to care throughout the family life cycle that responds to the needs of families and adapts to the changing dynamics of the health care system from health promotion to end of life a streamlined organization delivers the clinical guidance you need to care for families significantly updated and thoroughly revised the 6th edition reflects the art and science of family nursing practice in today s rapidly evolving healthcare environments

child growth entails the biological psychological and emotional changes that occur in human beings between birth and the end of adolescence as the individual progresses from dependency to increasing autonomy it is a continuous process with a predictable sequence yet having a unique course for every child educational psychology is a distinct scientific discipline within psychology that includes both methods of study and a resulting knowledge base this book authoritatively describes all important aspects of child

growth and educational psychology students scholars and academics in the field of education and psychology besides educational planners psychologists psychiatrists etc will find this book highly valuable

increasingly global humanitarian efforts are focusing on improving the lives of children and among the developing world the african nations are particularly affected by extreme weather conditions devastating pandemics and armed conflict neurocognitive science offers significant avenues toward bringing needed aid to the continent while creating a template for helping children worldwide the studies in neuropsychology of children in africa clearly illustrate how the brain develops and adjusts in the face of adversity contributors span assessment approaches and public health risk factors and represent established topics and emerging lines of research including biocultural constructs and genomic technologies together these chapters argue for methodology that is culturally sensitive scientifically rigorous consistent and sustainable and although the focus is pediatric the book takes a lifespan approach to prevention and intervention modeling a universal framework for understanding neurocognitive development included in the coverage assessment of very young children in africa in the context of hiv psychosocial aspects of malnutrition among african children assessment of neuropsychological outcomes in pediatric severe malaria neurodisability screening using the ten questions questionnaire the neuropsychology of sickle cell disease in west african children computerized cognitive rehabilitation thera py for african children as a guide to current findings or a springboard for new studies neuropsychology of children in africa is a necessary reference for researchers policymakers and diverse professionals in global aid organizations and across the discipline

this essential text will prepare slps to make the best possible clinical decisions and improve the communication and overall quality of life for children and adolescents with developmental language disorders addresses a broad age span and teaches b
