more than half the states in this country have legislation on sex offenders that distinguishes between those whose offense is incidental to other offenses felony sexual offenders and those who engage in repetitive habitual or compulsive sex offenses criminal sexual psychopaths this second category is the subject of this book the legislation specifies that criminal sexual psychopaths must be treated not punished but treatment is problematic the literature on various approaches finds uncertainty about the effectiveness of treatment pallone asks the difficult question of whether there is a prospective right to effective treatment and notes the political and ethical questions involved in potentially more effective clockwork orange approaches the ethical burden on mental health clinicians is heavy despite the fact that the category sexual psychopath is

essentially a legal not a psychiatric category judges tend to follow professional recommendations as to categorization pallone emerges with some surprising but convincing conclusions if the distinction between felony and psychopathic sexual offender is essentially empty as the profession feels it is it should be abandoned all criminal sexual offenders should be punished except those who opt for treatment and who are certified by mental health professionals as likely to benefit and for those few so identified society should be prepared to commit significant resources to their treatment this speculation on the past present and future of criminal sexual deviation comes from a psychologists with a broad command of the literature and deep professional experience in the area combining a broad ranging overview of the legal criminological and psychiatric literature on these questions rehabilitating criminal sexual psychopaths raises important questions legal experts criminologists mental health professionals and all those concerned with public policy will find it significant

one of the key challenges of all types of practice and research is finding a way to measure the problem this seminal 2 volume book contains hundreds of the most useful measurement tools for use in clinical practice and in research all measures are critiqued by the editors who provide guidance on how to select and score them and the actual measures are wholly reproduced this second volume focusing on measures for use with adults whose conditions of concerns are not focused on family relationships or couple relationships includes an introduction to the basic principles of measurement an overview of different types of measures and an overview of the rapid assessment inventories included herein volume ii also contains descriptions and reviews of each instrument as well as information on how they were selected and how to administer and score them this book is designed as the definitive reference volume on assessment measures for both practice and research in clinical mental health this fifth edition of corcoran and fischers measures for clinical practice and research is updated with a new preface new scales and updated information for existing instruments expanding and cementing its utility for members of all the helping professions including psychology social work psychiatry counseling nursing and medicine alone or as a set these classic compendiums are powerful tools that clinicians and researchers alike will find an invaluable addition to or update of their libraries

the authors refine amplify and extend the conceptual model for understanding tinder box criminal aggression they first introduced in criminal behavior this work integrates relative contributions made by such intrapersonal characteristics as the need for serial stimulation impairment in foresight and planfulness and the acquisition of a taste for risk on the one hand with such factors as child rearing practices vicarious conditioning sub cultures of violence and the availability of mood altering chemical substances on the other hand
