essays discuss behaviorism reductionism physicalism functionalism the nature of mental states and the foundations of psychoanalysis

this book presents a remarkable diversity of contemporary opinions on the prospects of addressing philosophical topics from a psychological perspective it considers the history and philosophical merits of psychologism and looks systematically at psychologism in phenomenology cognitive science epistemology logic philosophy of language philosophical semantics and artificial intelligence

history and philosophy of psychology is a lively introduction to the historical development of psychology its distinct inclusion of ideas from both eastern and western philosophies offers students a uniquely broad view of human psychology whilst covering all the major landmarks in the history of psychology the text also provides students with little known but fascinating insights into key questions ^[?] such as whether freud really cured his patients what was nude psychotherapy and were the early psychologists racist encourages students to explore the philosophical and theoretical implications of the historical development of psychology explores key theoretical ideas and experiments in detail with background to their development and valuable suggestions for further reading

psychology aims to give us a scientific account of how the mind works but what does it mean to have a science of the mental and what sort of picture of the mind emerges from our best psychological theories this book addresses these philosophical puzzles in a way that is accessible to readers with little or no background in psychology or neuroscience using clear and detailed case studies and drawing on up to date empirical research it examines perception and action the link between attention and consciousness the modularity of mind how we understand other minds and the influence of language on thought as well as the relationship between mind brain body and world the result is an integrated and comprehensive overview of much of the architecture of the mind which will be valuable for both students and specialists in philosophy psychology and cognitive science

what is the relationship between common sense or folk psychology and contemporary scientific psychology are they in conflict with one another or do they perform quite different though perhaps complementary roles george botterill and peter carruthers discuss these questions defending a robust form of realism about the commitments of folk psychology and about the prospects for integrating those commitments into natural science their focus throughout the book is on the ways in which cognitive science presents a challenge to our common sense self image arguing that our native conception of the mind will be enriched but not overturned by science the philosophy of psychology is designed as a textbook for upper level undergraduate and beginning graduate students in philosophy and cognitive science but as a text that not only surveys but advances the debates on the topics discussed it will also be of interest to researchers working in these areas

philosophy of psychology is a well structured introduction to the nature and mechanisms of cognition and behaviour from one of the leaders in the field

psychology and philosophy provides a history of the relations between philosophy and the science of psychology from late scholasticism to contemporary discussions the book covers the development from 16th century interpretations of aristotle s de anima through kantianism and the 19th century revival of aristotelianism up to 20th century phenomenological and analytic studies of consciousness and the mind in this volume historically divergent conceptions of psychology as a science receive special emphasis the volume illuminates the particular nature of studies of the psyche in the contexts of aristotelian and cartesian as well as 19th and 20th century science and philosophy the relations between metaphysics

transcendental philosophy and natural science are studied in the works of kant brentano bergson husserl merleau ponty wittgenstein and davidson accounts of less known philosophers such as trendelenburg and maine de biran throw new light on the history of the field discussions concerning the connections between moral philosophy and philosophical psychology broaden the volume s perspective and show new directions for development all contributions are based on novel research in their respective fields the collection provides materials for researchers and graduate students in the fields of philosophy of mind history of philosophy and psychology
