adapted from the groundbreaking bestseller *Principles of Comparative Politics* Third Edition, *Foundations of Comparative Politics* presents a scientific approach to the rich world of comparative inquiry research and scholarship providing you a guide to cross national comparison and why it matters. This condensed, more accessible format introduces you to the key questions in comparative politics using brief insights from tools such as decision social choice and game theory to help you understand clearly why some explanations for political phenomena are stronger than others. *Foundations* concentrates on describing the core features of regimes and institutions and on analyzing how these fundamental attributes drive variation in the economic and political outcomes we care about most. This approach more closely replicates what comparative scholars do: constructing and testing theories on political phenomena over basic memorization of country specific facts to explain rather than describe. Illustrated with current examples that show the application of theory, you will gain invaluable real world skills in critical thinking and empirical analysis that you will carry with you long after the course is over.

As must reading for anyone interested in comparative politics, this text is designed to address the theoretical developments and approaches important to the comparative study of political systems today. These include developmentalism, dependency theory, corporatism, state society relations, political economy, public policy analysis, indigenous theories of change, rational choice, and the new institutionalism. This text sees the new diversity of approaches as healthy and invigorating. The diversity in comparative politics over the past two decades has been reflected in prior editions of this book, whereas these separate approaches once may have been regarded as fragmentary, now scholars have come to regard the diverse lines of inquiry as lending complimentary tools of analysis to our complex modern world. The emerging methods of comparative study often provide causeways between previous islands of theory. In this new edition, all the main approaches to comparative politics are represented in chapter length treatment. Several contributors revisit the topics they addressed in the prior editions: e.g. Tony Smith on dependency analysis, Lawrence Graham on public policy, and Joel Migdal on state society relations.

most significantly the third edition introduces readers to new provocative analyses such as paul adams on corporatism anthony gill on political economy ronald inglehart on political culture gerardo munck on rational choice a h somjee on indigenous theory and frank l wilson on the new institutionalism introductory and concluding essays by editor howard j wiarda integrate the book placing the different approaches in perspective

principles of comparative politics offers the most comprehensive and up to date introduction to comparative inquiry research and scholarship in this thoroughly revised third edition students now have an even better guide to cross national comparison and why it matters the new edition retains a focus on the enduring questions with which scholars grapple the issues about which consensus has started to emerge and the tools comparativists use to get at the complex problems in the field among other things the updates to this edition include a thoroughly revised chapter on dictatorships that incorporates a discussion of the two fundamental problems of authoritarian rule authoritarian power sharing and authoritarian control a revised chapter on culture and democracy that includes a more extensive examination of cultural modernization theory and a new overview of survey methods for addressing sensitive topics a new section on issues related to electoral integrity an expanded assessment of different forms of representation and a new intuitive take on statistical analyses that provides a clearer explanation of how to interpret regression results examples from the gender and politics literature have been incorporated into various chapters the problems sections at the end of each chapter have been expanded and the empirical examples and data on various types of institutions have been updated online videos and tutorials are available to address some of the more methodological components discussed in the book the authors have thoughtfully streamlined chapters to better focus attention on key topics

this text sees the new diversity of approaches as healthy and invigorating the diversity in comparative politics over the past two decades has been reflected in prior editions of this book
