highlighting the progress made by researchers in using based surveys for data collection this timely volume summarizes the experiences of leading behavioral and social scientists from europe and the us who collected data using the internet some chapters present theory methodology design and implementation while others focus on best practice examples and or issues such as data quality and understanding paradata a number of contributors applied innovative based research methods to the liss panel of centerdata collected from over 5 000 dutch households their findings are presented in the book some of the data is available on the book website the book addresses practical issues such as data quality how to reach difficult target groups how to design a survey to maximize response and ethical issues that need to be considered innovative applications such as the use of biomarkers and eye tracking techniques are also explored part 1 provides an overview of internet survey research including its methodologies strengths challenges and best practices innovative ways to minimize sources of error are provided along with a review of mixed mode designs how to design a scientifically sound longitudinal panel and avoid sampling problems and address ethical requirements in surveys part 2 focuses on advanced applications including the impact of visual design on the interpretability of survey questions the impact survey usability has on respondents answers design features that increase interaction and how internet surveys can be effectively used to study sensitive issues part 3 addresses data quality sample selection measurement and non response error and new applications for collecting online data the issue of underrepresentation of certain groups in internet research and the measures most effective at reducing it are also addressed the book concludes with a discussion of the importance of paradata and the data collection process in general followed by chapters with innovative experiments using eye tracking techniques and biomarker data this practical book appeals to practitioners from market survey research institutes and researchers in disciplines such as psychology education sociology political science health studies marketing economics and business who use the internet for data collection but is also an ideal supplement for graduate and or upper level undergraduate courses on internet research methods and or data collection taught in these fields

though many archival digital objects were not born digital film archives are now becoming important resources for digital scholarship as a consequence of digitization moreover with advancements in digital research methods involving video annotation visual analysis and gis affecting the way we look at archival films material stylistic histories and circulation new research practices are more important than ever visualizing film history is an accessible introduction to archive based digital scholarship in film and media studies and beyond with a combined focus on the history of film historiography archiving and recent digital scholarship covering a period from the first wave of film archiving in the early 1900s to recent data art this book proposes ways to work critically with digitized archives and research methods christian olesen encourages a shift towards new critical practices in the field with an in depth assessment of and critical approach to doing film historiography with the latest digital tools and digitized archives olesen argues that if students scholars and archivists are to fully realize the potential of emerging digital tools and methodologies they must critically consider the roles that data analysis visualization interfaces and procedural human machinery interactions play in producing knowledge in current film historical research if we fail to do so we risk losing our ability to critically navigate and renew contemporary

research practices and evaluate the results of digital scholarship

this first issue of the semi annual lifelong learning bibliography contains references to output from january to june 2001 a time of intense debate and reflection on lifelong learning in europe it also includes monographs chapters journal articles legal texts internet sites and cd roms dealing with lifelong learning at european international and european commission member state levels the 506 item bibliography is structured under headings of current interest and by the situation in member states and the candidate countries the key themes category includes skill development human resources development learning innovation accreditation of prior learning guidance and counseling and community based learning topics under transversal themes are active citizenship employability and partnership the category situation at european level covers european policy national policy documents european union eea countries and central and eastern european countries the category situation at international level covers international organizations africa asia australia united states and canada in each category literature is presented in alphabetical order by title showing all important fields to enable identification of suitable documents for titles not in english or french a rough translation is provided documents have been indexed using the european training thesaurus descriptors are listed under each publication an annex lists by country members of the documentary information network with address address and contact person ylb
