this text explores natural disasters such as volcanoes earthquakes flooding and other hazards it looks at how these phenomena develop and their impact on the environment

focuses on natural disasters how the normal processes of the earth concentrate their energies and deal heavy blows to humans and their structures this title is concerned with how the natural world operates kills and maims humans it talks about energy sources underlying disasters plate tectonics and climate change and more

natural disasters 10th edition focuses on explaining how the normal processes of earth

concentrate their energies and deal heavy blows to humans and their structures students have a natural curiosity about natural disasters and why they occur this text explains why natural disasters occur by interweaving the themes of energy sources plate tectonics climate change earth processes geologic time the complexities of multiple variables operating simultaneously throughout the text detailed and interesting case histories are also intertwined with current content to give students a broad historical understanding of our dynamic and evolving planet

this book conducts a systematic inquiry into the tragic deaths caused by natural disasters at different geographic scales it employs key disaster concepts and classification of disasters to understand the high mortality rates and the various factors associated with these deaths deaths are the direct and immediate impact of disaster events which have remained a major concern for disaster managers and policy makers all over the world using primary research and secondary data this book provides a comprehensive analysis of various facets of disaster deaths such as trends circumstances and causes and determinants at global regional national and subnational scales it offers a holistic perspective on disaster mortality which has been lacking for some time the book not only fills this research gap but also suggests important policy implications for disaster managers and policy makers working in multilateral bilateral local and international nongovernmental organizations ngos these policies include effective strategies to significantly reduce the risk of deaths caused by natural disasters which are explored through chapters written in a clear and accessible style drawing together the case studies on past major disasters as well as recent ones the book provides new and critical insights into deaths precipitated by natural disasters suitable for both technical and nontechnical readers the book has a broader appeal and will thus be useful for practitioners researchers students as well as activists in the area of hazards and disasters who are interested in studying mortality due to extreme natural events

our world is a very dangerous place a fact placed in historical and social context by this three volume set each of the 23 sections covers a particular kind of disaster e g avalanches and earthquakes and includes a scientific explanation followed by descriptions of the particular events in chronological order

scientific and historical overviews of natural disasters followed by a chronological survey of the worst or most notable disasters in history including such recent events as the 2004 tsunami and hurricane katrina

contemporary movies and television programs often depict the world as we know it displaced awash in ocean tides or broken into pieces by devastating earthquakes the

climate data coming through news outlets can seem to reinforce this fatalistic view with earth warming records hitting new levels year after year while it can seem like natural disasters are increasingly affecting our world is there data to support this perception or is this view of events mediated by panicked activists and the media this anthology explores key ideas and opinions regarding discussions about natural disasters including subjects such as the frequency and severity of natural disasters whether natural disasters boost the economy the role that geoengineering can play and whether global warming is the sign of a new ice age

this startling vital book deserves our attention san francisco chronicle for fans of war dogs and bad blood an explosive look inside the rush to profit from the covid 19 pandemic from the award winning propublica reporter who saw it firsthand the united states federal government spent over 10 billion on medical protective wear and emergency supplies yet as covid 19 swept the nation life saving equipment such as masks gloves and ventilators was nearly impossible to find in this brilliant nonfiction thriller called revelatory by the washington post award winning investigative reporter j david mcswane takes us behind the scenes to reveal how traders contractors and healthcare companies used one of the darkest moments in american history to fill their pockets determined to uncover how this was possible he spent over a year on private jets and in secret warehouses traveling from california to chicago to washington dc to interview both the most treacherous of profiteers and the victims of their crimes pandemic inc is the story of the fraudster who signed a multi million dollar contract with the government to provide lifesaving ppe and yet never came up with a single mask the navy admiral at the helm of the national hunt for additional medical resources the department of health whistleblower who championed masks early on and was silenced by the government and conservative media and the politician who callously slashed federal emergency funding and gutted the federal ppe stockpile winner of the goldsmith prize for investigative reporting mcswane connects the dots between backdoor deals and the spoils systems to provide the definitive account of how this pandemic was so catastrophically mishandled shocking and monumental pandemic inc exposes a system that is both deeply rigged and singularly american
