Triangle The Fire That Changed America Triangle the fire that changed America The Triangle Shirtwaist Factory fire remains one of the most devastating industrial disasters in American history, a tragic event that not only claimed the lives of 146 garment workers but also ignited a nationwide movement for labor reform and workers' rights. This catastrophic fire, which occurred on March 25, 1911, in New York City, exposed the brutal working conditions prevalent in many factories of the time and served as a catalyst for significant changes in labor laws, workplace safety standards, and industrial regulations across the United States.

### The Background of the Triangle Shirtwaist Factory

The Industry and Working Conditions During the early 20th century, the garment industry was booming in New York City, driven by increasing demand for clothing and the rise of mass production techniques. The Triangle Shirtwaist Factory, located on the top floors of the Asch Building in Manhattan, employed primarily young immigrant women, many of whom were Jewish and Italian. The factory was known for its long hours, low wages, and poor working conditions. Key points about the working environment:

- Overcrowded workspaces with 500 to 600 workers crammed into small rooms
- Limited safety measures and inadequate fire escapes
- Use of highly flammable materials like fabric and paper patterns
- Strict enforcement of factory rules, with workers often locked in to prevent theft and unauthorized breaks

### The Build-Up to the Fire

On the day of the fire, a small blaze ignited on the 8th floor of the factory, possibly caused by a cigarette or a match. The fire quickly spread due to the highly flammable materials present. The factory's inadequate safety measures, including insufficient fire escapes and blocked exits, turned a small incident into a catastrophic disaster.

### The Fire and Its Immediate Aftermath
